REISSUE APPLICATION DECLARATION BY THE INVENTOR**Docket Number (Optional)**

47097-00958USPR

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,257,401 B1, granted July 10, 2001, and for which a reissue patent is sought on the invention entitled Vented Container with Handles and Embossment,

the specification of which

- ☐ is attached hereto.
- ☒ was filed on July 10, 2003, as reissue application number / and was amended on .
(if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
- ☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
- ☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claim 7 of U.S. Patent No. 6,257,401 B1 claims a thermoplastic container comprising, *inter alia*, "a pair of opposing side walls and a pair of opposing end walls, said side walls and said end walls extending upward from said bottom, said end walls extending between said side walls." The specification indicates that the container can have "any desired shape, such as round, oval, square, etc., but is preferably rectangular." Column 4, lines 31-38. Claim 7 is considered deficient in that it unnecessarily limits the shape of the container to the preferred embodiment. This aspect of the claims has been broadened by the new and amended claims.
